ORDER INFORMATION Sizes of the fittings are indicated by the dash numbers as relating to sixteenths of an inch measured from the Outside Diameter of the tube size used. For example: 1/2" O.D. (8/16) or - 8. Male or female pipe sizes are similar in that 1/2" pipe thread is also (8/16) or - 8. For fittings with ISO 9974 Metric O-Ring/Retaining Ring stud ends, the Retaining Ring may be removed to make the stud end compatible with an SAE J2244-1 or ISO 6149-1 port.

For fittings with ISO 1179-3 BSPP O-Ring/Retaining Ring stud ends, removing the Retaining Ring for use in JIS B 2351-1 port is not recommended.

AIR-WAY
GLOBAL MANUFACTURING

AIR-WAY. ADAPT TO ANYTHING.

AIR-WAY has been providing hydraulic fitting and adapter solutions for over 60 years. You'll find thousands of forged or two-piece configurations in carbon steel, stainless steel, or brass materials. Air-Way offers customers unequalled value through superior custom manufacturing capability, unique delivery options, quality, and customer service. Visit AIR-WAY.com to stay connected.
